A. What is the Canvas Quiz Log Feature?

The Quiz log helps you investigate problems that a student may have had in a quiz. Each attempt displays timestamps and quiz action statuses in the quiz log.

Notes:

- If you gave the student multiple attempts for a quiz, the log would always show the most recent attempt by default. However, you can view any attempt within the log.
- Quiz logs are only retained for six months.

B. Accessing Quiz Log

1. Open the quiz you want to view
2. Click the vertical three-dot button [1] on the top right and select choose “Show Student Quiz Results”. [2]

3. Choose the name of a student and then click “View Log”.

Alternatively, you can go to SpeedGrader and select “View Log”.

C. View Session Information and Action Log

- The session information shows the start date and time [1] for the attempt [2].
- The action log for the specified attempt will display a status [3] and a timestamp [4] for each quiz action.
- To refresh the quiz log, click the Refresh icon [5].

The screenshot shows a user interface for viewing session information and an action log. At the top right, there is a refresh icon (circular arrow) labeled '5'. Below the title 'Session Information', the start date and time are displayed as 'Started at Fri Jun 02 2017 13:45:11 GMT-0600 (MDT)', with a callout '1' pointing to the time. Below this, there are two attempt buttons labeled '1' and '2', with a red arrow pointing from callout '2' to the '2' button. The 'Action Log' section is enclosed in a red border and contains a list of actions with timestamps and status icons. Callout '3' points to the status icon of the first action, and callout '4' points to the timestamp of the first action. The actions listed are:

- 00:02 Session started
- 00:14 Answered the following questions: #4 #5 #6 #7
- 00:17 Viewed (and possibly read) question #1
- 00:17 Viewed (and possibly read) the following questions: #2 #3 #4

- 00:17 Resumed.
- 00:20 Answered question: #3
- 00:32 Viewed (and possibly read) the following questions: #5 #6

D. Interpretation of Action Log Statuses

Possible action log statuses include:

- **Viewed (and possibly read) a question [1]:** the student is active on the quiz page, but has not answered the question.
- **Answered a question [2]:** the student has answered the question. If questions are shown being answered multiple times, the student either changed their answer(s), or the answer was generated by the quiz autosave feature.
- **Stopped viewing the Canvas quiz-taking page [3]:** the student navigates away from the quiz (closes the browser tab, opens a new browser tab, or navigates to a different program) for more than 15 seconds, or the student is inactive within Canvas for more than 30 seconds (including navigating to another Canvas page).
- **Resumed [4]:** the student has returned to the quiz.

F. Notes

- The log may show all questions as being answered at the beginning of the quiz. This action is generated by the autosave component within Canvas quizzes. If a student clicks to answer another question, the quiz will autosave all the questions and show them as being answered.
- When viewing the question answers in the log, the question will show a null or no answer response for the autosaved answer attempt.
- There have also been reports of students who use browsers in other languages and having answered submitted that are translated, whether by Google Translate or their operating system. While it has not been confirmed what can cause this, we recommend advising students to disable Google Translate on their browsers and to make this clear during class time.
 - Ultimately, upon viewing the log history and seeing the characters being typed at different times, you may be able to determine whether the student meant to submit their response in another language or not.
