Kaltura: Setting Chapters in Videos

Instructors can use Kaltura to add chapters to videos that they have uploaded to a Canvas course. Please note that you must be the original uploader of the video to add these features. Otherwise, the options will not appear.

A. Setting Chapters

1. Open Media Gallery

In the Course Navigation sidebar, click the My Media link.

2. Select Video

Click the **Edit** icon next to the video you would like to add chapters to, identifiable by the pencil icon.

3. Select Timeline

Along with the tabs underneath the video preview, select **Timeline**

4. Select location in Timeline

On the Timeline underneath the row of Tab titles, click anywhere along it to choose a chapter location.

The vertical red line will indicate where the chapter will be placed.

5. Create a New Chapter

Having selected a location on the Timeline, click on the **Create a new Chapter** button on the left.

6. Chapter Information

Fill in the information related to the chapter and click **Save**.

Chapter Thumbnail	Time and Tags	
Auto Upload Upload Chapter Information	0:00.748	
Enter Chanter Title	Save	
Enter Chapter Description	View in Player	

7. After saving, confirm that the chapters have been saved by clicking on the hamburger button (**three bars**) in the top left corner of the video preview.
