

Canvas – Grading Schemes

Table of Contents

A. How to Enable a Grading Scheme for a Course	1
B. Common Grading Schemes	5
C. Course Grading Schemes	7
D. Assignment Grading Schemes	9

This tip sheet will provide information on how to enable the UBC grading schemes in a Canvas course.

A. How to Enable a Grading Scheme for a Course

Open Settings

In Course Navigation, click the **Settings** link.

Open Course Details

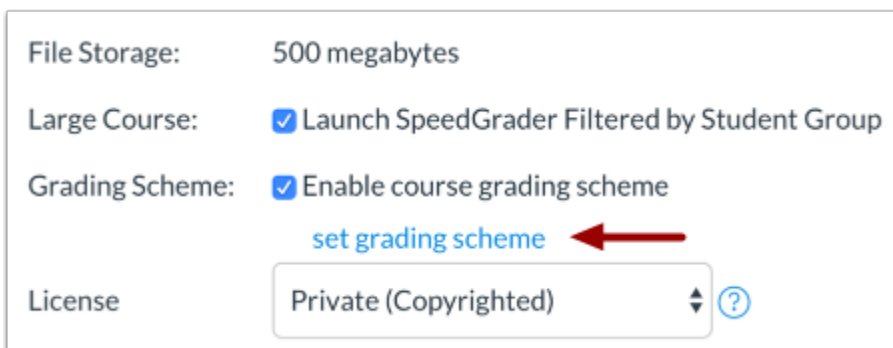

Click the **Course Details** tab.

Enable Grading Scheme

Click the **Enable course grading scheme** checkbox.

Set Grading Scheme

To create a grading scheme for your course, or to use a default grading scheme provided by your account, click the **set grading scheme** link.

Select Grading Scheme

View/Edit Grading Scheme ✕

Default Grading Scheme [Select Another Scheme](#)  

Name:	Range:	
A	100 %	to 94.0%
A-	< 94.0 %	to 90.0%
B+	< 90.0 %	to 87.0%
B	< 87.0 %	to 84.0%
B-	< 84.0 %	to 80.0%
C+	< 80.0 %	to 77.0%
C	< 77.0 %	to 74.0%
C-	< 74.0 %	to 70.0%
D+	< 70.0 %	to 67.0%
D	< 67.0 %	to 64.0%
D-	< 64.0 %	to 61.0%
F	< 61.0 %	to 0.0%

View your enabled grading scheme. Click the **Done** button.

Click the **Update Course Details** button.

B. Common Grading Schemes

Grading schemes are built based on percentage ranges, and each percentage range is assigned a name value. You can create any grading scheme by editing the name and percentage range for each item. When enabling a grading scheme for a course, the grading scheme is applied to the students' final grades in addition to the overall percentage.

Notes:

- Grading schemes only support two decimal places.
- The only scores allowed in the Gradebook are those defined in the grading scheme.
- Gradebook entries that are not specifically defined in the grading scheme revert back to the icon showing that the submission needs to be graded. Depending on an assignment's display grade, some Gradebook entries cannot convert to a grading scheme.

Letter Grades

Letter Grades		
Name	Range	
A	100%	to 94%
A-	< 94%	to 90%
B+	< 90%	to 87%
B	< 87%	to 84%
B-	< 84%	to 80%
C+	< 80%	to 77%
C	< 77%	to 74%
C-	< 74%	to 70%
D+	< 70%	to 67%
D	< 67%	to 64%
D-	< 64%	to 61%
F	< 61%	to 0%

Letter Grades is the most traditional type of grading scheme and is the default format for new grading schemes. Only supported scores are allowed in the Gradebook, so if you build a letter grade scheme with name values for only A, B, and C, you cannot enter a score that converts to an A- or B+.

Performance

Performance		
Name	Range	
Excellent	100%	to 90%
Good	< 90%	to 80%
Fair	< 80%	to 70%
Poor	< 70%	to 60%
Fail	< 60%	to 0%

Performance grading schemes are based on a standard of individual performance. Only supported scores are allowed in the Gradebook, so if you build a performance scheme with the name values of only *Excellent* and *Poor*, you cannot enter a score of *Good*.

D. Assignment Grading Schemes

Student Name	Constitution Assign... Out of 50	Moderated Assign... Out of 20 MANUAL
Emily Boone History 101 and History 101 MWF	Pass	18
Max Johnson History 101 T-Th	Pass	19
Bruce Jones History 101	Pass	14
Joe Rogers History 101	Pass	16
Nora Sanderson History 101 T-Th	Pass	20
Jane Smith History 101 MWF	Pass	14
Test Student History 101, History 101 MWF, and Hist...	-	-

Grading schemes can be applied specifically to individual assignments. Each assignment includes a field that allows you to choose how the grade is displayed in the Gradebook and on the student Grades page. Learn how to enable an [assignment grading scheme](#).

For **Letter Grade Schemes**, you can input scores in the Gradebook depending on the assignment display type:

- For any assignment type, you can enter grades as points or a percentage. For instance, if an assignment is worth 10 points and the student earns 9, you can input 9 or 90% (which displays the grade defined in the percentage range).
- When an assignment grade display is set explicitly to Letter Grade, you can also input a letter grade directly, such as an A-.

For **Performance schemes**, you can input scores in the Gradebook by points, percentage, or performance value. For instance, if an assignment is worth 10 points and the student earns 9, you can input 9 or 90% (which displays the performance defined in the percentage range). You can also input a performance value directly.

Note: Grading schemes do not apply to Assignment Group columns in the Gradebook.
